

Snap lock poster displays

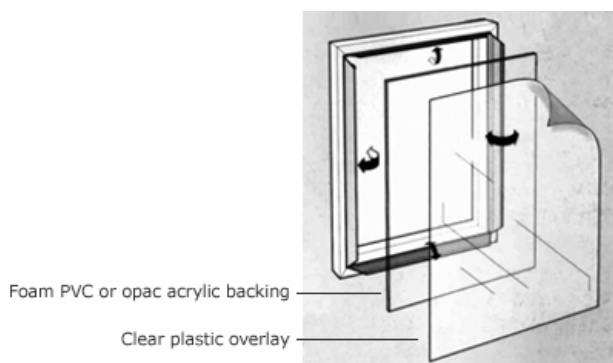

These two-piece frames feature a smooth, easy snap action where only the inner frame opens, to prevent unsightly movement and gaps in mitred corners, no matter how often they're opened. They make short work of refreshing your displays, and are made of 100% UV resistant, non-corrosive long-life materials.

At just 12mm thick, it's also the thinnest snap display on the market, and can be neatly recessed into a wall. It's ideal for lighting cabinets too – with opal acrylic backing for a diffused glow.

As the NZ manufacturing distributor, we import the frame extrusions and can tailor frames to your needs, including a tamper resistant option in some models. We'll happily supply frames powder-coated to match your corporate or brand colours. For illuminated options, see our range of Easy Loader LED Illuminated displays.

How it works

- Snap open the four inner sections to easily change your poster.
- Poster is sandwiched between backing and clear overlay.

Mini Easy Loader Frame with Mini Snap

Good things come in small frames (A5) and not so small frames that include foam PVC backing and clear cover sheet. Ask us for recommendations.

- Suitable for standard sized frames from A5 up to A1 – and tailored dimensions.
- Normally contains a 3mm foam PVC backing & 1mm clear overlay.
- Width - 26mm Thickness - 12mm
- Snap section covers 10mm of poster.
- The outer frame dimension is 35mm larger than the poster size.
- The mini frame can accept material up to 6mm thick including cover.
- These are not sold in knock down form.
- Available in polished silver or gold finish, or standard anodised satin silver aluminium.
- Also available in a tamper resistant option.

Classic Easy Loader Frame with Classic Snap

Versatile classic frames screw together and can ship flat. They will hold artwork up to 6mm thick including cover and backing sheets, and come in sizes from A4 up to some impressive large customised options. Ask us for details.

- Suitable for A4 up to dramatic custom sizes, and video (700mm x 1000mm).
- The classic snap can be used with either the mini or classic inner.
- The standard finish is anodised satin silver.
- Available in a tamper resistant option.
- Width - 42mm Thickness - 12mm
- Snap section covers 15mm of poster.
- The outer frame dimension is 55mm larger than the poster size.

Double sided Easy Loader Frame

Double sided, double the impact! Perfect for window displays. Provided with suspension assembly options for hanging displays.

Fitted with cable systems for hanging/freestanding displays.

Width - 43.5mm Thickness - 22mm.

Frame width extends 55mm beyond graphic

Secure options

Tamper resistant snaps fit snugly against the clear overlay without leaving a gap for a finger to open it. To open, simply slip a thin blade under the snap section. We can also fit additional springs to make them more difficult to tamper with.

Security screws can be fitted for even better security. Frames can't be opened without first removing these.
